F3/F3+/F8/F12

Low and high speed corded single disc machines

- The Tennant F3 multi-purpose low speed floor machine is very comfortable to use and suitable for application on a variety of floor types. The versatile F3 is ideal for scrubbing, polishing, removing polish and intensive cleaning of industrial flooring.

- The Tennant F3+ heavy duty low speed floor machine effortlessly removes most kinds of dirt and restores floor coatings from damage caused by burns, rubber marks and firmly engrained stains. The high down pressure of 38,5g/cm^2 is ideal for cleaning almost any floor, applying a deep gloss on coated hard floor surfaces and removing polish.

- The Tennant F8 high speed floor machine rapidly removes most types of soiling and scuff marks of a variety of floors, leaving a polished floor that attracts less dirt and is easier to clean. The F8 is ideal for producing a high gloss floor finish, hardening coatings and polished films and spray cleaning coated floors.

- The Tennant F12 is a universal dual speed floor machine made for everyday cleaning as well as for periodical maintenance. The F12 effectively scrubs and strips at 170 rpm and allows the operator to double the speed with one button, which makes it the ideal machine for spray buffing and polishing.

Low and High speed corded single disc machines
