TENNANT

THE FUTURE OF SWEEPING HAS ARRIVED

X16 SWEEP

AUTONOMOUS FLOOR SWEEPER

Fortify your standard for industrial cleanliness with the X16 SWEEP: a heavy-duty robotic sweeper designed with a focus on safety that reinforces a culture of cleanliness and helps ensure greater flexibility in your space.

Ideal for those prioritizing data-driven solutions, the X16 SWEEP helps empower operations with leading cleaning technology.

- Easy integration into your existing floor care protocols.
- Deploy easily to maintain a high standard of clean.
- Track and manage your fleet with BrainOS® Ops Management tools.

Experience a Safe Industrial Clean
Utilize Brain Corp's intelligent navigation software combined with Tennant's legacy of cleaning expertise to autonomously sweep dust and debris. Built-in safety features deliver reliable operation and precise control, even in complex environments.

Drive Your Team Forward With Autonomy
Designed to reduce the need for hands-on supervision, the X16 SWEEP helps facilities navigate labor constraints by acting as a reliable partner to your existing team. Its intuitive interface and low-maintenance design make it easy to program and deploy, allowing your staff to concentrate on more critical, high-value work.

Make Way for Around-the-Clock Productivity
The X16 SWEEP is created to be flexible in dynamic environments, helping operators and managers to reallocate resources as needed. Create a more seamless integration of cleaning into your daily functions and rely on Tennant's Customer Success Team to leverage data to help optimize machine operation.

Performance Engineering That Delivers
Sweep effectively with advanced sweeping technologies designed to tackle a variety of flooring and debris types. MaxPro™ sweeping technology helps to ensure consistent and powerful main brush performance. Paired with effective edge cleaning, you'll get the results you deserve every time.

STRENGTH MEETS SMART DESIGN

Tennant Smart-Sense™
Hopper full indicator reducing guesswork and equipment downtime.

Color changing status beacon
Provides visual information regarding machine status.

Safety indicator lights
Headlights, taillights, turn signals, and front and rear blue lights work together to improve employee and facility safety during operation.

Front 3D LiDAR
Enhances visibility for increased autonomy.

Flexible charging options
Powered by lithium-ion batteries* and available with standard on-board charger or the optional X16 CHRG.

Color-coded touch points
For ease of training and maintenance.

Side brush edge cleaning
Designed to maximize cleaning efficiency

Integrated DustShield™ system
Effectively contains dust while cleaning.

**Lithium-ion batteries are warranted for five (5) years non-pro-rated or 2000 charge cycles (whichever comes first).*

X16 SWEEP SPECIFICATIONS

Sweeping path (main brush)	46 in / 116 cm
Minimum U-Turn Width	108 in | 274 cm
Minimum Aisle Width	57 in | 144 cm
Hopper Dump Height	61.8 in / 157 cm
Hopper Volume Capacity	5.3 ft^3 / 150 L
Autonomous sweeping runtime	>6 hours in Eco mode
Charging Options	On-board/Off-board/Tennant X16 CHRG Charging Station
